6. Meetings Attended and Other Activity

CPUSA Finance Committee (Reserve Fund) 3 (informal)

7. Reports Submitted

For security reasons, as previously explained to the Bureau, NY 694-S does not furnish written reports or oral reports reduced to writing and signed by the informant. The reports of NY 694-S, which approximate 115 for the pertinent period, are disseminated to the Bureau, other field offices, and pertinent NYO files as the nature thereof requires, that is, by teletype, airtel, letter, or memorandum.

8. Information Furnished of Unusual Value

The informant reported on funds furnished to the CPUSA by Soviet sources.

The informant furnished reports of meetings between CPUSA functionaries and NIKITA KHRUSHCHEV while the latter was in NYC.

9. Approximate Number of Persons Concerning Whom Informant Reported and Their Importance

In his role of secret member of the CP, acting as a member of the CP Finance Committee, and liaison with the

NY 134-91A

Canadian CP, NY 694-S reported principally concerning the operations of top-level CPUSA leaders, and concerning CP policy as revealed to him by said leaders. He also reported contact with a Canadian CP functionary, and a Canadian CP courier. In the current pertinent period he has reported contact with 18 such individuals.

10. Informant's Potential for Advancement

From the standpoint of obtaining valuable information concerning CP policy and top-level operations, the informant's position is ideal. For him to seek any other CP post would militate against his obtaining the important and varied information he now secures. His objective is to extend his field of operation in the position he now holds in the CP.

11. Stability and Reliability

No personal weaknesses, indications of instability, untrustworthiness, unreliability, or of similar problems, were noted during the pertinent period. Much of the information furnished by the informant has been verified.

12. Indoctrination Against Disclosure

Every opportunity has been taken to properly indoctrinate the informant against making any disclosure of his relationship with the Bureau.

13. Action Taken on Information Furnished

All necessary action has been taken, and the information has been properly channelized.

14. Miscellaneous

Information obtained from NY 694-S has been furnished to the Bureau under appropriate captions.

There is currently on deposit in a special account at the Emigrant Industrial Savings Bank the sum of \$6521.90, of which \$521.90 is accrued interest.

NY 134-91A

The informant's cover company office continues to be essential to his maintaining contact with CP functionaries and to the cover operation itself.

ReNYlet to Bureau, 1/5/61, and Bulet to Chicago, 1/27/61, captioned "SOLO, IS - C."

On 1/30/61, a conference was held at a discreet location in New York City attended by Supervisor [ ] SA [ ] SA ALEXANDER C. BURLINSON, and NY 694-S\*.

b6  
b7C  
b7D

The immediate purpose of the conference was to discuss utilization of [ ] as the third person in clandestine meetings between VLADIMIR BARKOVSKY and CG 5824-S\* or NY 694-S\* in New York City.

Prior to this conference, preliminary favorable inquiries had been made by SA BURLINSON with NY 694-S\* concerning NY 694-S\*' indirect but positive help in activating [ ] into the Communist Party (CP) itself and, more particularly, guiding [ ] into NY 694-S\*' sphere of "financial" operations within the CP.

b6  
b7C  
b7D

[ ] on the other hand, had been cautioned by SA [ ] to be on the alert for contact by a member of the CP, which contact would not necessarily be by his usual contact, [ ]. It was borne in mind that [ ] had been twice, currently, included by the CP on lists of persons to be contacted for contributions to the CP.

At the beginning of the conference, it was pointed out to NY 694-S\* that his direct aid in this matter was being

sought and any suggestions he had were most welcome. NY 694-S\* appeared quite pleased that his help was being sought in such direct fashion and appeared most anxious and willing to participate.

It soon became apparent to NY 694-S\*, as it had previously to the Special Agent conferees, that [redacted] activation had dual potentiality. That is, successful development, in addition to providing one more highly placed security informant, would also provide an individual capable of ultimately replacing NY 694-S\* in certain of his functions when and if necessary.

b7D

That is to say, for example, [redacted] is particularly well-fitted for assumption of courier duties and utilization as the "third person" referred to in reBulet to Chicago of 1/27/61. His mode of employment and personal life in general would provide excellent, built-in cover for such operation. In addition, being well versed in investment matters, market analysis, and financial-economic matters, and having provided counsel to the CP in these areas before, [redacted] can, with relative ease, be placed in contact with appropriate members of the CPUSA hierarchy by NY 694-S\*.

As the conference progressed, it became apparent that [redacted] did, in fact, possess those qualities necessary in an individual who could ultimately act as a replacement for certain of NY 694-S\*' functions: [redacted] was a ready, willing, able, mature individual with a long history of CP affiliation. He had attended CP meetings and was known to and respected by certain of the CP hierarchy. He had contributed money to the CP, but more important, according to NY 694-S\*, he had been the investment counselor relied upon by the CP, and utilized by the CP through [redacted] to wisely and profitably invest funds held by the CP.

b6  
b7C  
b7D

[redacted] (ADM)

b7D

Especially important, and NY 694-S\* wholeheartedly agreed, was the fact that [redacted] when properly developed and "tested" and when and if approved as such by the Bureau, would be acceptable to NY 694-S\* as his replacement in certain areas, for example, as a courier and as the "third person" referred to above.

b7D

[redacted] The ultimate objective then was development of [redacted] in such a fashion that [redacted] could, if and when necessary, replace as many of NY 694-S\*' functions as became logical and possible.

The immediate objective was utilization of [redacted] as the third person in the clandestine meetings in New York City referred to above.

b7D

It was noted by the conferees that [redacted] identity as an informant would be known to NY 694-S\*, but NY 694-S\*' identity as such would not be known to [redacted].

The following four steps, submitted herewith for Bureau approval, were considered by the conferees, including NY 694-S\*, as the best possible long-range approach to secure implementation of [redacted]

I. NY 694-S\* would cause [redacted] to casually contact [redacted] place of employment for the announced purpose of seeking [redacted] professional help.

b6  
b7C  
b7D

[redacted] (Bufile 100-405677), a Security Index subject in the NYO, is a member of the "Wall Street Group.")

While in contact with [redacted] who is known to [redacted] would appropriately arrange a meeting between

[redacted] (ADM)

b7D

NY 694-S\* and [redacted]

Such an approach would be above suspicion because:

A. According to NY 694-S\*, the CPUSA hierarchy normally feels that [redacted] is a "regular" contact of the CP because [redacted] is reported as such by [redacted] even though [redacted] keeps [redacted] "in his pocket" and as inaccessible as possible to individuals other than himself.

b6  
b7C  
b7D

B. [redacted] is already listed as a potential "Wall Street" contributor to the CP.

II. NY 694-S\* and [redacted] would meet at an agreeable, discreet place and would discuss:

A. Why the CP and NY 694-S\* had not sought earlier contact with [redacted] Because: NY 694-S\* had been away; the Party was underground; the Party had been protecting [redacted] by keeping away; [redacted] had pressing problems, for example, a chronically ill wife.

b7D

B. An annual commitment (contribution pledge) would be obtained from [redacted]

NY 694-S\* advised that although [redacted] would be asked to make his annual pledge \$1,000.00, in fact a lesser sum, about \$500.00, would actually be accepted; the \$500.00 to be accepted in smaller amounts over a year's time.

When the request for contribution is actually made, Bureau approval will be requested for payment of the amounts involved.

[redacted] (ADM)

C. Arrange for obtaining long-range economic-financial information from [redacted] on a regular basis and in conjunction therewith arrange for [redacted] transmission of that information to an appropriate individual in the CP; for example, arrange a meeting between [redacted] and GUS HALL.

b6  
b7C  
b7D

III. Continual periodic contact to be had by [redacted] NY 694-S\* and others in the CP hierarchy, with [redacted] as go-between to arrange the details of contacts, meetings, and so forth. [redacted] would be utilized by NY 694-S\* in the contacting capacity because he is employed "on the Street" and could more logically "cover" such contacts.

This continual contact would, of course, be valuable in and of itself inasmuch as the informant's contacts within the CP would necessarily broaden and grow, and with the added feature that the contacts and growth could be limited, controlled, and directed by NY 694-S\*.

IV. When and if necessary, [redacted] could replace NY 694-S\* in as many of his domestic and foreign operations as logic and possibility would permit at that time.

b7D

On 1/31/61, NY 694-S\* advised that on the previous day, subsequent to the conference, he had been in contact with GUS HALL. HALL advised NY 694-S\* that he would very much like to meet with and talk to [redacted] HALL left specific planning of such a contact up to NY 694-S\*.

b7D

If and when the above four-step plan of development of [redacted] is approved, the NYO will begin effecting the long-range plan outlined above and will closely guide and supervise the activity of both NY 694-S\* and [redacted] to insure attainment of the desired goals.

[redacted] (ADM)

b6  
b7C  
b7D

The NYO wishes to advise the Bureau that on 2/1/61, NY 694-S\* advised that in view of the complex nature of the planned utilization of [redacted] including the involvement of [redacted] NY 694-S\* feels that he is in the best position to advise CG 5824-S\*. He requested therefore that the above planning, including its immediate and ultimate objectives, not be made known to CG 5824-S\* at this time. The NYO requests that Chicago not notify CG 5824-S\* until further advised.

SUBJECT: NY 694-S  
CG 5824-S

DATE: January 30, 1961

Reurlets 12-27-60 and 1-17-61.

Approval granted to continue present cover business of informants and to pay necessary expenses in connection therewith as estimated in relet of 12-27-60. Authorization is effective immediately and continues until 12-31-61. Keep Bureau advised of all steps taken in connection with this operation by the submission of progress letters on a quarterly basis.

As indicated in previous communications, informants should be advised the Bureau is not interested primarily in the success of this cover as a business venture, but it should be given as much attention as is consistent with Bureau work.

NY 694-S has indicated in the past that he felt within a short time the business would be self-supporting, but he cannot determine when this will be. You should again point out to NY 694-S that even though he may feel the venture will pay off, he should understand that if there is any profit, the Bureau expects to be repaid first from such profits for the advances which have been made to set up the operation.

You should continue to advise in each quarterly progress letter the amount of time being spent by each informant in the conduct of the cover business. The observations of each office should be set forth as to whether the time being spent is necessary and if the activity of the informants in the cover business is interfering in any way with their Bureau work.

Rebulet to Chicago, copy to NY, 1/27/61, instructing both offices to submit recommendations as to the feasibility of using an informant such as [redacted] as a third person for clandestine meetings with VLADIMIR BARKOVSKY.

b7D

Rebulet also instructed NY to submit recommendation as to the feasibility of moving the office of NY 694-S to another location in NYC.

By letter to Bureau, 2/2/61, under the caption, [redacted] copy to Chicago, the NYO advised that in its opinion NY 3122-S, after successful development, could be particularly well suited to being 'the third person' in contacts with BARKOVSKY. NY 694-S, at the NY letter of 2/2/61, reflects, in of the opinion that [redacted] under the informant's guidance, could be trained to replace, if necessary, NY 694-S in some of the latter's operations.

b7D

With regard to the feasibility of moving NY 694-S' office, the Bureau's attention is directed to NY letter 1/26/61, captioned, 'SOLO; IS-C.' Said letter reflects that at a scheduled meeting with BARKOVSKY on 2/3/61, NY 694-S would submit to the latter suggestions regarding a change in location of the informant's office.

By airtel dated 2/3/61, under the 'SOLO' caption, the Bureau and Chicago were advised regarding the meeting on 2/3/61, between NY 694-S and BARKOVSKY. The said airtel reflects that BARKOVSKY did not approve NY 694-S' suggestions regarding a change in the location of the informant's office, and insisted that the new location be in the area of Lower Broadway, near the Battery.

Through a contact of the NYO, arrangements can be made for the informant to rent a two-room office suite at 10 Broad St., which is in the area suggested by BARKOVSKY, and which would cost approximately that the informant's present office costs. NY 64-3 will investigate this proposed location within the next few days and if he considers it suitable, he will suggest it to BARKOVSKY at their next meeting, which is scheduled for 2/12/61.

The Bureau and Chicago will be advised of further developments in this matter.

It should be noted that BARKOVSKY, on 2/3/61, insisted that NY 64-3 move to a new location by 2/1/61.

On 2/15/61, NY 694-S\* advised that on 2/14/61, in a contact with IEM HARRIS, he instructed the latter to arrange that [REDACTED] be advised that during the second week of March, 1961, [REDACTED] would be contacted by "a responsible Party person." [REDACTED] is not to be told now that he will be requested to make a donation to the CP, nor is he to be told that the "responsible Party person" is NY 694-S\*.

b7D

HARRIS stated that the instructions of NY 694-S\* were "timely" in that this is the time of year when ROBERT DUNN, VICTOR PERLO, [REDACTED] hold one of their periodic meetings to discuss economic matters. HARRIS indicated that this group meets several times a year for this purpose.

b6

b7D

HARRIS further stated that he would ask ROBERT DUNN to advise [REDACTED] regarding the proposed meeting with "a responsible Party person" but that it was possible that DUNN might consider it more appropriate that PERLO contact [REDACTED] in this regard.

NY 694-S\* advised that after he meets [REDACTED] he will arrange that, within a short time later, NY 694-S\* and GUS HALL have a meeting in a hotel suite where [REDACTED] may brief GUS HALL regarding economic matters of interest to the CPUSA.

ReBuairtel, 2/21/61, copy to Chicago, suggesting that consideration be given to use one of our informants as a courier to transfer \$7000 of SOLO funds to the Communist Party of Puerto Rico.

Pursuant to Bureau instructions this matter was discussed on 2/23/61, with NY 694-S by the contacting Agent. With regard to [redacted] NY 694-S stated that it is inconsistent with security, premature, and futile to consider using [redacted] to the CP of Puerto Rico.

Having had no contact in years with [redacted] NY 694-S does not exclude the possibility that [redacted] might be a triple agent, and that upon contact with the latter, NY 694-S might be told that [redacted] has been in recent contact with Bureau Agents, who tried to develop him as an informant.

Although NY 694-S has agreed to contact [redacted] during the second week of March as the first and basic step in the activation of [redacted] as authorized by the Bureau, he will not be in a position until that time to form an opinion with respect to whether or not he should continue to contact [redacted]

According to NY 694-S, in view of [redacted] position as a wealthy investment broker - a partner in his firm - it is highly unlikely that he could afford to leave

his office to act as a courier for the transmittal of \$7000 to the Puerto Rican CP. The CP would suspect his motives if he should accept such an assignment.

NY 694-S also feels certain that HALL will not permit \$7000 to be given to the Puerto Rican CP at one time inasmuch as HALL has indicated that the Puerto Rican CP would dissipate such a "wind-fall" in a very short time. NY 694-S believes that the money will be given to the Puerto Rican CP over a long period in comparatively small amounts.

NY 694-S stated that he is opposed to the use of [redacted] as a courier for the transmittal of the \$7000 to the Puerto Rican CP, and is positive that CG 5824-S would also be of the same opinion. He requests that the Chicago Office not mention to CG 5824-S the proposal to use [redacted] as a courier to the Puerto Rican CP.

b7D

The NYO is in agreement with NY 694-S' analysis of the advisability of using [redacted] in this matter.

ReNYairtel to Bureau, copy to Chicago, dated 2/20/61. It is requested that Chicago advise the Bureau and the NYO concerning how CG 5824-S plans to transmit to the Puerto Rico CP the \$7000 aforementioned.

Since CG 5824-S and NY 694-S are equally as important in our coverage of both national and international communism and are both providing invaluable information as a result of their efforts, authority is granted to increase payments to each informant from \$1600 per month to \$1100 per month for services rendered and normal expenses incurred for a period of four months effective 2-1-61. This increase in compensation should be added incentive for both informants to continue to expend their best efforts on behalf of the Bureau and to achieve even greater accomplishments.

b7D

The informant is being kept alert for the expected contact by "some" (unnamed and unknown) individual in the Communist Party. He has advised that he will immediately advise his contacting agent when such contact is made, at which time plans can be made for future action dependent on that contact.

The informant was reluctant to suggest who from the Communist Party, other than [redacted] he might suspect as a logical person to contact him. He was reluctant, so he advised, to possibly "involve" someone by pointing that individual out as a Communist Party contact, when, in fact, he had no personal knowledge of information which would connect that individual with the Communist Party. He stated that over the years, he has met with "a couple" of economic writers and critics at social functions and Wall Street business gatherings, but that he could not properly evaluate their political position.

b6  
b7C

Informant was cautioned to be alert to, and to report in detail, any future contacts which might appear to him to have any connection, direct or indirect, with the Communist Party.

On 2/24/61, NY 694-S\* advised that he was planning to begin contact with [redacted] during the middle part of March, 1961. Reference is made to the over-all plan of development of [redacted] (NYlet to Bureau, 2/2/61) wherein initial contact between NY 694-S\* and [redacted] would be effected by a logical third person. However, it is noted that NY 694-S\* recently

SAC, NEW YORK (134-91A)

NY 694-S

As the Bureau has been informed, NY 694-S, on the advice of his physician, went to Miami, Florida, on 2/28/61. The informant returned on 3/11/61. Since the bleeding from his lung had not ceased while he was in Miami, NY 694-S, on his return to NY, consulted [redacted] a lung specialist who has been treating him.

b6  
b7C

According to [redacted] the current bleeding is due to a "flareup" of the infection in the lower right lobe of the lung. The doctor has ordered a different type of medication to combat the bleeding of the informant's lung. The doctor also indicated that unless the lung infection can be cured medically within the next six months, surgery may be necessary.

The NYO requests Bureau authority to pay NY 694-S for the period 2/28 to 3/11, during which he was away from NY for reasons of health.

BACKGROUND

There are no pertinent additions to, or changes in, the background information thus far submitted to the Bureau.

[ ]  
[ ]  
The ultra-sonic cauterization referred to in reNYlet of 3/7/61 was ruled out at the last moment as potentially dangerous.

DEVELOPMENT, PROGRESS AND CONTACTS

During March, 1961, the informant has continued periodic casual contact with [ ] On 3/22/61, [ ] stated that [ ] has not discussed Communists or Communism, except for a limited financial discussion concerning Cuba and various corporate holdings in that country. he desires as an investment dealer without touching on Communism and thereby running the risk of losing [redacted] as a "friendly" and valuable investment contact.

Consequently, [redacted] has been cautioned to be most careful in those same areas of discussion in order that he not arouse [redacted] suspicion by possibly illogical or poorly-timed changes in his political opinions.

b6  
b7C  
b7D

As outlined and indicated in the 2/2/61 NYlet to Bureau, and in previous letters, according to information provided by NY 694-S\*, [redacted] has profited greatly from personal utilization of [redacted] as an investment counselor and sounding board for [redacted] financial problems. The basic Communist Party (CP) plan, on the other hand, was that [redacted] acting for the CP, would contact [redacted] for investment counseling and relay the counseling obtained back to the CP for CP utilization and benefit. However, by degrees, over the past five to ten years, [redacted] has succeeded in personally isolating [redacted] to such an extent that contact with [redacted] could and would be effected only through [redacted] as a go-between.

It will be noted therefore that utilization of [redacted] [redacted] as a means for reactivation of [redacted] into the CP, though possible and logical, would nevertheless be complicated and time consuming.

b6  
b7C  
b7D

The very person to be utilized in the re-establishment of broad contact with the CP, [redacted] would himself be against such re-establishment for selfish, personal reasons. In addition, he would be in a perfect position to frustrate logical secure efforts in that direction almost at will.

[redacted] would have to reassure [redacted] of his

[redacted] (ADM)

[redacted] political orientation (or re-orientation, depending upon how far [redacted] feels [redacted] has swung to the right) by taking advantage of appropriate, well-spaced, secure, conversational opportunities.

b6  
b7C  
b7D

ReNYlet to Bureau of 2/2/61 which outlined planned utilization of a third person, [redacted] to obliquely contact [redacted]

On 3/17/61, NY 694-S\* advised that as a result of his contacting GUS HALL (General Secretary, CPUSA) concerning [redacted] and HALL's anxiety to make contact with this individual, NY 694-S\* decided that in order to expedite this matter, he would ask LEM HARRIS to arrange contact with [redacted]. LEM HARRIS advised NY 694-S\* that he would make such a contact through one of the following four individuals; namely, ROBERT W. DUNN, VICTOR PERLO, [redacted]

VICTOR PERLO (Bufile 100-362128) and ROBERT W. DUNN (Bufile 61-3849) are both Security Index subjects in the New York Office and are both associated with the "Wall Street group."

It is to be noted that [redacted] (Bufile 100-364392, a Security Index subject in the NYO and a member of the "Wall Street group") works in the same office with [redacted]  
[redacted]

NY 694-S\* advised on 3/17/61 that LEM HARRIS had reported back to the informant and advised him that he had decided to make the contact with [redacted] and had done so. [redacted] then reported back to LEM HARRIS and told him that under no circumstances should representatives of the Communist Party contact [redacted] due to the fact that the "Rover boys" had, within the past three months, been in contact with [redacted]. In addition, [redacted] told LEM HARRIS that

b6  
b7C  
b7D

[redacted] (ADM)

b6  
b7C  
b7D

[redacted] and also that [redacted] was having job difficulties, all of which facts, according to [redacted] would militate any representative of the CP making contact with [redacted]

As a result, NY 694-S\* pointed out that the situation did not look at all good from the standpoint of further developing [redacted] in connection with this apparatus. As a result of NY 694-S\*' comments in this regard, an immediate conference was arranged for 3/20/61 between NY 694-S\*, Supervisor [redacted] and SAS ALEXANDER C. BURLINSON [redacted]. NY 694-S\* expressed at this conference that [redacted] comments were based on [redacted] comments, as it must be assumed such is the case since one sits adjacent to the other, and further, it must be also assumed that [redacted] is trying to retain [redacted] for his own selfish purposes at the expense of the CP.

b6  
b7C  
b7D

Going on that assumption, NY 694-S\* was advised that this was a completely disgusting situation as it was developing. It was hard for the FBI to understand how the CP could permit a man like [redacted] to milk [redacted] at the expense of the CP. It was pointed out to NY 694-S\* that the agents felt that NY 694-S\* was too smart to permit [redacted] to outsmart him in this regard, especially when [redacted] motives are quite apparent when one realizes that although [redacted] raises a security question in the CP's maintaining any contact with [redacted] he [redacted] nevertheless was in contact with [redacted] as recent as one week ago. It was pointed out to NY 694-S\* that [redacted] position seems quite inconsistent and that he should not be permitted to get away with it.

b6  
b7C  
b7D

In addition, the extremely valuable information in possession of [redacted] from an investment standpoint was

[redacted] (ADM)

impressed upon NY 694-S\* with a pointed suggestion that [redacted] should not be the exclusive recipient of this valuable information, as he was getting wealthy at the expense of members of the CP, as well as the CP itself.

b6  
b7C  
b7D

NY 694-S\* became quite inflamed over [redacted] dastardly conduct, pointing out that he has felt that way all along and that [redacted] has taken an undue advantage over him and the Party and that he was not going to permit that.

It was pointed out to NY 694-S\* that he certainly could not afford to drop this matter in view of HALL's request to make contact with [redacted] NY 694-S\* was highly in agreement with this thinking.

As a result of this conference, NY 694-S\* stated that he will contact [redacted] and instruct him to send a letter to [redacted] arranging for an appointment. In the meantime, we should advise [redacted] to expect some kind of a communication from an individual requesting an appointment and suggest to [redacted] that it be honored.

b6  
b7C  
b7D

On 3/22 and 23/61, NY 694-S\* advised that he had arranged with [redacted] to have [redacted] communicate with [redacted] by letter and a follow-up phone call. The announced purpose of the contact between [redacted] would be the presentation [redacted] of a personal financial problem for solution [redacted]

b6  
b7C  
b7D

On 3/22/61, [redacted] was once again alerted for contact by a representative of the CP in the immediate future, which contact would not be arranged for by [redacted]

[redacted] (ADM)

[redacted] was cautioned not to communicate the expectation of the contact to [redacted] and not to tell [redacted] when and if contact was actually made. [redacted] was told further that apparently the CP had at long last recognized that [redacted] had walled off [redacted] and was planning to go around [redacted] and, as anticipated and expected, make a contact through a third person.

b6  
b7C  
b7D

[redacted] appeared poised and ready, waiting for the contact and anxious to report to his contacting agent for further instructions.

The Bureau will be advised of the result of this contact and all other steps in the informant's development as directed in Bulets concerning this matter.

Referenced letter reflected that NY 694-S\* would instruct [ ] to send a letter to [ ] arranging for a meeting between [ ] the announced purpose of which would be the presentation to [ ] by [ ] of a personal financial problem for solution by [ ]

The purpose and result of this approach would be twofold: First and foremost it would "test" [ ] integrity and sincerity concerning his relationship with the FBI. That is to say, prompt reporting of the receipt of such a letter and a discussion of its details with his contacting agent would be further proof of [ ] integrity and sincerity. Secondly, the time lag between his receipt of such a communication and the time of being previously forewarned of the possibility of such a receipt would permit him, if he was so inclined, to discuss the matter with [ ] his usual CP contact. Such a contact would ultimately have been communicated to NY 694-S\*. No such contact was ever reported by NY 694-S\*.

Re: NYlet, 1/17/61.

The financial statements for the cover company for the period 1/1/61 to 3/31/61 are submitted. The statements include a Profit and Loss statement for the period, a Balance Sheet as of 3/31/61, a Cash Statement and schedules of details of expenses.

The Profit and Loss Statement reflects a gross profit on sales of \$204.82, and an operating loss of \$1,247.64. The merchandise inventory is computed at cost. Payment of \$2,500 to the cover company in February resulted in an increase of loans payable from \$5,000 to \$7,500, which represent the money advanced by the Bureau since 1960.

The next report will be submitted on or about July 15, 1961.

NY 694-S\* continues to spend approximately two hours per day on cover company operations without interfering with his efforts on behalf of the Bureau.

Re: 1st, 1/17/61.

The financial statements for the cover company for the period 1/1/61 to 3/31/61 are submitted. The statements include a Profit and Loss statement for the period, a Balance Sheet as of 3/31/61, a Cash Statement and schedules of details of expenses.

The Profit and Loss Statement reflects a gross profit on sales of \$204.22, and an operating loss of \$1,247.64. The merchandise inventory is computed at cost. Payment of \$2,500 to the cover company in February resulted in an increase of loans payable from \$5,000 to \$7,500, which represent the money advanced by the Bureau since 1960.

The next report will be submitted on or about July 15, 1961.

NY 694-S\* continues to spend approximately two hours per day on cover company operations without interfering with his efforts on behalf of the Bureau.

# Memorandum

TO : SAC (134-91)

DATE: 4/21/61

FROM : SUP. [REDACTED] #41

SUBJECT: NY 694-S\*

At 3:30 PM, 4/21/61, I telephonically communicated with Supervisor CARL FREYMAN of the Chicago Office at which time I advised him that NY 694-S\* had received certain instructions from GUS HALL and requested that we relay this information to CG 5824-S\*. GUS HALL wants CG 5824-S\* to come in on Monday night for a conference with him on Tuesday. HALL is not calling him in to discuss the Cuban situation even though that's bad. He is calling him in because:

1. At the moment HALL is discussing in the National Board meeting the question whether "THE WORKER" can be published twice a week and soon become a daily. (Money angle re CG 5824-S\*)
2. HALL is asking Moscow to subscribe immediately to 2,000 subscriptions to "PEOPLES WORLD".
3. HALL wants CG 5824-S\* to see whoever goes to Moscow on Tuesday before they leave.
4. HALL wants to discuss [REDACTED] with CG 5824-S\*. [REDACTED] finds himself without work at the moment because he can't get along with HY LUMER, Educational Director, whom he is supposed to replace if LUMER goes to jail. HALL wants to discuss [REDACTED] being given International Affairs Commission work.

FREYMAN stated that he will get this information passed on to CG 5824-S\* as soon as possible.

On 4/25/61, [ ] advised that [ ] had contacted him that day and asked [ ] if he was available to meet on 4/26/61, with the "prominent individual" referred to during their meeting on 4/18/61 (CF re NYlet to Bureau). [ ] told [ ] that he would be able to make the meeting and detailed plans were made.

On 4/26/61, [ ] advised as follows concerning his meeting that evening at the Antler's Restaurant, 63 Wall Street, NYC, with [ ] and NY 694-S\*:

b6  
b7C  
b7D

[ ] advised that the individual he was introduced to by [ ] was JACK CHILDS, whom [ ] immediately recognized as another of those individuals with whom [ ] occasionally met in the financial district ten or fifteen years ago.

[ ] advised that the meeting was a short one and that he and NY 694-S\* spent considerable time in small talk concerning the "Market situation at the present time" and reference and comparison to persons and events of years ago.

NY 694-S\* explained to [ ] that his purpose in getting together with [ ] was to determine if [ ] would be willing to get together with him and other individuals like him to discuss economic-financial matters and to exchange and discuss their different points of view. [ ] recognized, as did NY 694-S\*, that [ ] viewpoint concerning the American economy has always been a favorable, bullish outlook with expectations of continued growth and prosperity. get together, NY 694-S\* told [redacted] that he would like to bring certain economists along to aid in the discussions and named [redacted] VICTOR PERLO [redacted] misspelled the name as PERLA (Bufiles 61-3849 and 100-362128, respectively) as examples of such economists.

b6  
b7C  
b7D

In addition, according to [redacted] NY 694-S\* stated that there were certain individuals within his sphere of activity who still had considerable sums of money to invest, who needed investment counseling, and who would welcome [redacted] as an investment counsellor. As an example of such individuals, [redacted] stated that NY 694-S\* named [redacted] (Bufile 100-350255).

[redacted] with calculated reluctance, agreed to consider favorably the request of NY 694-S\*.

The remainder of the meeting, according to [redacted] was given over to small talk and a discussion of ways and means of maintaining contact and meeting again.

[redacted] stated to his contacting agent that he had purposely appeared somewhat reluctant concerning subsequent meetings with NY 694-S\* and others in order not to appear too anxious. He had reminded NY 694-S\* that he had a very important position to protect and that his available free time was limited and very valuable.

b7D

[redacted] further advised his contacting agent that the meeting went well and that he would remain ready for the next meeting with NY 694-S\* or whoever else would be caused to meet with him.

NY 694-S\* advised on 4/26, 27/61, that he and NY 694-S\* met as planned and, also, that the meeting went very well.

NY 694-S\* stated that [redacted] left the meeting almost immediately after bringing he and [redacted] together. NY 694-S\* stated that after renewing their old, limited acquaintanceship by reference to names and events from the past,

b6  
b7C  
b7D

[redacted]  
he and [redacted] went into a discussion concerning the reason and purpose behind NY 694-S\*' wishing to contact [redacted]

b7D

NY 694-S\* explained that he had had considerable difficulty establishing direct contact with [redacted] and attributed the difficulty to blocks placed in the way by HERMAN WALLACH [redacted]

b6  
b7C  
b7D

NY 694-S\* stated that although the words Communist Party were never actually mentioned, innuendo and reference to old names and events common to him and [redacted] left no doubt as to NY 694-S\*' position as an important representative of the Communist Party.

NY 694-S\*' discussion of the meeting between him and [redacted] was substantially the same as that set forth by [redacted] NY 694-S\* told [redacted] that for years there had been a gap or void created by the inactivity or liquidation of the "old group" in Wall Street. NY 694-S\* told [redacted] that he hoped that [redacted] would agree to meet with him (NY 694-S\*) and other important individuals in his group to discuss current financial-economic problems and future prospects from their divergent Bullish [redacted] general position) and Bearish (CP's general position) viewpoints. NY 694-S\* mentioned [redacted] PERLO as possible attendees of such meetings.

b7D

Additionally, NY 694-S\* advised he told [redacted] that there were still, as there had been in the past, wealthy individuals favorable to his cause, who had considerable sums to invest, and who needed counseling of the type that [redacted] could provide. According to NY 694-S\*, [redacted] agreed to meet with NY 694-S\* and the "economists" and to help with the mentioned counseling.

b7D

[redacted] according to NY 694-S\*, appeared ready to act according to NY 694-S\*' wishes and so stated. [redacted] did show some preliminary reluctance stating that his relationship with NY 694-S\* and those associated with him would necessarily require utmost attention to discretion and protection of his position on Wall Street.

[redacted]

According to NY 694-S\*, the meeting terminated after detailed plans were made for making later contact with each other.

b7D

The Bureau will be kept currently advised of future meetings which will grow out of this initial meeting between NY 694-S\* [redacted] which, as reflected above, proceeded according to plan.

Note: Other expenses incident to the operation of the cover company are not listed herein inasmuch as a separate report reflecting such expenses is submitted to the Bureau periodically.

6. Meetings Attended and Other Activity

CPUSA Finance Committee (Reserve Fund) 1 (informal)

7. Reports Submitted

For security reasons, as previously explained to the Bureau, NY 694-S does not furnish written reports or oral reports reduced to writing and signed by the informant. The reports of NY 694-S, which approximate 125 for the pertinent period, are disseminated to the Bureau, other field offices, and pertinent NYO files as the nature thereof requires, that is, by teletype, airtel, letter, or memorandum.

NY 134-91A

8. Information Furnished of Unusual Value

The informant reported concerning funds furnished to the CPUSA by Soviet sources.

The informant reported the desire of the Soviets for closer liaison with the CPUSA.

9. Approximate Number of Persons Concerning Whom Informant Reported and Their Importance

In his role of secret member of the CP, acting as a member of the CP Finance Committee, and liaison with the Canadian CP, NY 694-S reported principally concerning the operations of top-level CPUSA leaders, and concerning CP policy as revealed to him by said leaders. He also reported contact with a Soviet, and with a Canadian CP courier. In the current pertinent period he has reported contact with thirteen such individuals.

10. Informant's Potential for Advancement

From the standpoint of obtaining valuable information concerning CP policy and top-level operations, the informant's position is ideal. For him to seek any other CP post would militate against his obtaining the important and varied information he now secures. His objective is to extend his field of operation in the position he now holds in the CP.

11. Stability and Reliability

No personal weaknesses, indications of instability, untrustworthiness, unreliability, or of similar problems, were noted during the pertinent period. Much of the information furnished by the informant has been verified.

12. Indoctrination Against Disclosure

Every opportunity has been taken to properly indoctrinate the informant against making any disclosure of his relationship with the Bureau.

13. Action Taken on Information Furnished

All necessary action has been taken, and the information has been properly channelized.

NY 134-91A

14. Miscellaneous

Information obtained from NY 694-S has been furnished to the Bureau under appropriate captions.

There is currently on deposit in a special account at the Emigrant Industrial Savings Bank the sum of \$6982.22, of which \$582.22 is accrued interest.

The informant's cover company office continues to be essential to his maintaining contact with CP functionaries and to the cover operation itself.

On 5/11/61, NY 694-S\* advised SA [REDACTED] that he had learned from GUS HALL, General Secretary, CPUSA, that JACOB MORDECHAI BUDISH had been working with HALL on the "economic question."

According to NY 694-S\*, BUDISH is to attend The Economic Conference in Prague, Czechoslovakia, which is to begin 5/26/61, as one of the representatives of the CPUSA.

JACOB MORDECHAI BUDISH (Bufile 100-229628), an SI subject in the NYO, is a former Editor of the English language page of the "MORNING FREIHEIT."

On 5/5/61, NY 694-S\* advised SA ALEXANDER C. BURLINSON that [REDACTED] had figured prominently in a 5/4/61 conference between NY 694-S\* and GUS HALL.

According to NY 694-S\*, HALL is preparing 5 questions on economics which he wants submitted to [REDACTED] for discussion and comment. HALL, according to NY 694-S\*, was utilizing BUDISH in the formation of these questions. BUDISH "a deep student of economics and Marxism-Leninism," will "refine and polish" the questions prior to their submission to [REDACTED]. HALL suggested to NY 694-S\* that a meeting be arranged between BUDISH and [REDACTED].

NY 694-S\* advised that the questions, when finally prepared, would be presented to [REDACTED] by NY 694-S\*. NY 694-S\* advised on 5/16/61 that the questions would most probably be ready for submission to [REDACTED] sometime during the week of 5/22-26/61.

The answers to the questions would become part of a report being prepared by HALL on the U. S. economy.

The NYO is closely following the above matter, bearing in mind that in addition to the above-stated use of [ ] answers to the questions -- inclusions in a report to be prepared by HALL -- HALL, and BUDISH may also consider using the answers to the questions as part of a briefing of BUDISH prior to his attendance at the Prague Conference.

The NYO will keep the Bureau currently advised concerning the progress of the above tentatively-planned meetings and exchange of questions.

On 5/15/61, informant advised that the potential contact time of him by his SOLO contact has been changed and should this individual desire to contact him, he will call informant's office at 12:00 noon.

The code message utilized between informant and his contact remain the same.

Informant reported that during a recent contact with this individual, he was told that the building in which he now has his office had been watched very closely for many weeks, and, in fact, he had been seen talking to several people in the lobby, one of whom was a woman who the contact asked informant if she was identical with MARY KAUFMAN. Informant stated he had no answer other than this was not KAUFMAN and it was his impression, which he told the contact, that it was probably a fellow tenant of the building.

SOME ECONOMIC PROBLEMS  
EARLY 1961

Economic Growth

Retardation of economic growth-as compared with pre-war rates in the United States and with present rates of growth in Western Europe and Japan.

Reasons for? Is "growth gap" due to special temporary passing circumstances or to structural weaknesses? (Burns-Heller dispute is partly based on different approach to this problem).

Acceleration of concentration and centralization of capital-mergers, absorptions, holding companies for banks, etc.; is proportion of total economy controlled by monopoly increasing and to what extent? What part, if any, has this process played in retarding economic growth?

To what extent may the significantly greater rate of economic growth of West Germany, Japan, etc. be attributed to the fact that these countries diverted a much smaller portion of their GNP to defense (production of military equipment, maintaining of military bases abroad, etc.) than

the United States? To what extent did that enable the economies of Western Europe and Japan to invest a much larger share of their GNP in new plant and equipment?

Did the bloating of our war industries creat an imbalance in the economy, and if so, to what extent?

#### Effective Demand

The general approach of American business economists is that:

National economic policy must be directed at providing enough demand in the aggregate to support a high and growing level of production and employment while avoiding inflation.  
(Chase Manhattan Bank statement)

President KENNEDY and his Council of Economic Advisors seem to adhere to the above position in fashioning their economic policies.

Effective demand obviously depends on 1) capacity of domestic market and 2) capacity and U.S. share of world market.

#### Domestic Market

What balance between consumer demand and business investment should be considered as most desirable and adequate, and how is such balance to be achieved?

#### Consumer Demand

Is the present ratio of consumer purchasing power to the productivity of labor adequate to provide a high and growing level of domestic demand? and how has the ratio of the relative rates of growth of purchasing power and labor productivity affected the capacity of the domestic market? To illustrate: output per worker in manufacturing increased 1953 to 1960 by over 30%; purchasing power of the workers increased by less than 15%-how does this fact affect domestic

[redacted] b7D

demand? How does the declining purchasing power of the farming population affect the capacity of the domestic market? What part is played by the increase in prices or the so-called creeping inflation in the imbalance of the economy, and how is it affected by "administered prices"?

#### Business Investments

Could fiscal policy-high depreciation allowances, reduced business taxes, etc.-serve as a real incentive for increased business investment as long as industry is operating even in prosperous years at about 80% of capacity? How would the fact that about three-quarters of total business investments go for modernization rather than for expansion affect the volume of employment? and wouldn't a further cut in the labor cost and number of employees result in a further shrinking of the domestic market?

#### Foreign Markets

What is the significance of the approach that apparently prevails in some influential sections of business to the effect that,

Our ability to increase exports determines whether (and by how much) America's national income can grow: it can only grow less-and quite a bit less-than U.S. exports. The international economy, not the domestic economy, sets the limitations on U.S. (economic) growth and prosperity and is the determining area of economic performance.

[redacted] Harvard)

b6  
b7C

Does this approach imply that business sees no way of significantly increasing the capacity of the domestic market? Is business unaware of the growing competition U.S. must meet on the world market? Or does it imply that the U.S. must use its power to secure for itself an increasingly greater share of the world market?

[REDACTED]

672

What is the significance of the fact that the U.S. share in industrial production of the capitalist world has declined from over 56% in 1948 to less than 47% in 1960, and that it is now only slightly higher than it was in the pre-war period (41% in 1937)? Shouldn't the relatively more rapid rate of growth of industrial production in Western Europe and Japan be considered as an indication that U.S. share of total industrial production of the capitalist world is due to continue to decline? Isn't this bound to affect unfavorably the U.S. share of the world market?

What is the significance of the fact that the U.S.A. share of total exports from capitalist countries declined from 32% in 1937 to about 18% in 1960, and that in 1960 its share was only slightly greater than it was in 1937-14.2%? What is the significance of the fact that the share of Western Europe, on the other hand, increased from 26% in 1947 to 43% in 1960, and that in 1960 it was greater than in 1937 when it was slightly less than 43%.

Wouldn't the formation of the "Common Market" headed by Germany and of the "Outside Seven" grouping, headed by Britain, affect unfavorably American exports to Western Europe?

Isn't American policy of non-coexistence with socialist countries jeopardizing its share of the growing markets of the U.S.S.R., China and the other socialist countries? (Canada just sold nearly \$425,000,000 worth of grain to China while the U.S.A. with its huge surplus stocks of grain would have no truck with socialist China).

Isn't the U.S.A. meeting with increasing competition from Western Europe, especially West Germany, and from Japan both in Asian-African countries and especially in Latin America?—both in the exports of goods and in the export of capital?

Isn't it a fact that U.S. exports to Latin American countries have been declining since 1957? and that the non-coexistence policy with revolutionary Cuba cut off a market of over \$600,000,000 (in 1957) for U.S. exports? Didn't American investments in Latin America decline nearly a billion dollars during the last two years to about \$8 billion in 1960?

[REDACTED]

NY 694-S advised that in the near future he would try to arrange an appointment with [REDACTED] so that he might submit the above questions to the latter. The Bureau will be advised of all further developments in this matter.

In connection with the SOLO meet between NY 694-S\* and VLADIMIR BARKOVSKY held on 5/8/61, informant advised on 5/9/61 that he had originally tried to contact BARKOVSKY at his home on 5/6, 7/61; up to the hour of 11:30 p.m. on 5/6/61 and 11:15 p.m. on 5/7/61. He was able to telephonically contact him on 5/8/61, at 7:30 a.m., and his contact with BARKOVSKY, during which he used the code message, "Is this the repair shop?--please send a man right over. Our fuses blew out and we are without light and power," is as follows:

BARKOVSKY then said that the caller had the wrong number, whereupon he was again asked, "Isn't this the repair shop?" Informant then stated he was sorry and hung up.

With this message, previous arrangements are effected, which are that the informant goes to the Town House Restaurant, 138-39 Queens Blvd, Jamaica, N.Y. He enters this establishment twenty minutes before the hour of 7:00 p.m. and will then leave precisely at 7:00 p.m., by the left door of the restaurant. He then turns left to the corner of 139 St. and turns left to the next corner and then proceeds left and keeps walking until BARKOVSKY catches up with him and stops him. Informant stated if he is not stopped he always continues walking until he (BARKOVSKY) catches up with him and stops him.

On 5/8/61, he stated, he followed this procedure and kept walking until he saw BARKOVSKY coming from a side street in the opposite direction. He did not look at him but kept right on walking with BARKOVSKY on one side of the street and informant on the other, approximately 100 paces apart.

This kept up for approximately 20 minutes, with BARKOVSKY occasionally looking behind him to see if anyone was following him and also looking into each car which passed his way.

Upon reaching Hillside Avenue and 143rd St. in Queens, BARKOVSKY stopped, which was the signal that informant should walk to him. He asked informant if he had much to say and if he had the time, whereupon informant advised him he had about ten minutes or longer and it was up to him if he wanted to get something to eat or not.

They then started walking, crossing Hillside Ave. toward Sutphin Blvd., Queens, NY, proceeding toward the BMT subway. At the subway, they took the train and rode for about three stations, and when BARKOVSKY was sure that no one got off the train who got on the train at the same station as they did, he got off the train and waited until everyone had left the platform before walking down the stairs. After leaving the subway, they walked to the corner of Myrtle, near Hillside Ave., and the corner of 117th St., Richmond Hill, N.Y., observed the neighborhood and went to the Salerno Restaurant at 117-11 Hillside Ave., Richmond Hill, N.Y. They remained there for forty minutes, with BARKOVSKY leaving the establishment before informant.

DIRECTOR, FBI (100-415964)

6/23/61

SAC, NEW YORK [REDACTED]

b7D

ReNYlet to Bureau, 5/16 and 25/61.

Background

Because of his wife's illness coupled with his inability to obtain adequate reliable summer domestic help, [REDACTED] will not move his family to their summer residence at Montrose, NY. Instead, he and his family will make frequent weekend trips to the summer residence.

b7D

Progress, Development and Contacts

Regular contact is being maintained with [REDACTED]. He is being contacted concerning appropriate general informant matters in the NYO in addition to the special emphasis being placed on furthering his association with the CP hierarchy.

b7D

NY letter to Bureau dated 5/25/61, referred to above, reflected that NY 694-S\* on 5/24/61, had made available to the NYO certain questions prepared by GUS HALL for submission to [REDACTED] for discussion and comment.

b7D

On 6/4/61, NY 694-S\* met with [REDACTED] and presented him with the questions together with a request that he withhold answering them until NY 694-S\* return from a "trip to the West Coast" which would take about three weeks.

In addition to presenting the questions, NY 694-S\* advised, on 6/15/61, that he had "felt out" [REDACTED] concerning bringing [REDACTED] together with certain U.S. economists and also bringing him together with other "new" economists. NY 694-S\* described these "new" economists as being not of the "old" VARGA school (a leading Soviet economist a decade or two ago), but a younger generation, the "new" school.

[redacted]

NY 694-S\* advised that [redacted] was quite receptive to NY 694-S\*' ideas concerning meeting with the "economists", given proper security and cautionary preparation, and stood ready for the next contact by NY 694-S\* at which time he, [redacted] would have answers prepared to the questions given him by NY 694-S\*.

b7D

NY 694-S\* stated that although he had not actually used the term "Russian economists" or "Soviet economists" in his discussions with [redacted] he was nevertheless sure that [redacted] had made the proper distinction between these newly-mentioned economists and the American, CP oriented, economists the two had discussed previously. NY 694-S\* stated that he was very pleased with the meeting with [redacted] considered him a "very brilliant individual" - they had discussed the possibility of the Soviet Union flooding the world oil market - and was looking forward eagerly to further meetings with [redacted] personally and especially to bringing [redacted] together with the economists mentioned during their last meetings.

b7D

NY 694-S\* advised that if and when an appropriate opportunity should arise during his current trip abroad he will mention [redacted] name as a brilliant American capitalist available for mutually beneficial contact with appropriate Soviet personnel.

On 6/15, 19/61, [redacted] reported concerning his meeting with NY 694-S\*. [redacted] made available the questions received from NY 694-S\* and stated that he would prepare answers for his next meeting with NY 694-S\* which would take place in about three weeks.

b7D

[redacted] stated that the questions had come from the CPUSA hierarchy, that NY 694-S\* had not been more specific concerning their origin and that although NY 694-S\* probably had taken some part in their preparation, they most probably had been prepared by someone quite conversant and learned in matters of world economics and finance.

[redacted]

[redacted] stated that he considered his meeting with NY 694-S\* to be a particularly good one principally because they had gotten into a discussion concerning possible future meetings between [redacted] and Soviet economists.

b7D

[redacted] mentioned that NY 694-S\* had noted that meetings between [redacted] and Soviet economists could, professionally speaking, be mutually beneficial. [redacted] stated, in an aside, as he had stated in the past, that his association over the years with Communists had never benefited him one bit professionally as a market analyst and economist.

[redacted] stated that although NY 694-S\* never used the term Russian or Soviet, he clearly understood that NY 694-S\* envisioned future meetings between [redacted] and certain younger generation Soviet economists.

NY 694-S\*, according to [redacted] also mentioned that he desired that [redacted] meet "as soon as possible" after NY 694-S\*' return from "the West Coast" with the American (CP oriented) economists that the two had discussed previously - [redacted] VICTOR PERLO.

b6  
b7C  
b7D

[redacted] expected that his next meeting with NY 694-S\* would be in about the middle of July, 1961.

[redacted] advised that in assenting to NY 694-S\*' desires that he meet with Soviet economists he had tried to appear not too overly anxious lest he become "known" to NY 694-S\*, and, further, that he had stressed with NY 694-S\* the need for the utmost security if and when such meetings should take place.

[redacted] stated that he had not been contacted by [redacted] since [redacted] had arranged the initial meetings between NY 694-S\* and [redacted] was obviously a mere "go-between", according to [redacted]

b6  
b7C  
b7D

[redacted]

On that point, it may be noted, that [redacted] had been instructed by his contacting agent to sort pedal his contacts with [redacted] an inferior underling, not particularly well-liked by NY 694-S\*, and stress his contacts with NY 694-S\*, an individual with high echelon, valuable CP contacts. It may be noted further that NY 694-S\* would have had trouble discretely dissuading [redacted] from contacting [redacted] inasmuch as he had persuaded [redacted] to make the initial contacts in the first place.

b6  
b7C  
b7D

NY 694-S\* advised on 6/15/61, that [redacted] would not be "bothering" [redacted] anymore because, according to NY 694-S\*, [redacted] had given [redacted] a stock "tip" which [redacted] certainly passed on to his customers and which dropped three points three days after [redacted] had received it.

b6  
b7C  
b7D

Apparently [redacted] had used his own especially effective professional way of casting off [redacted] a customers man.

Concerning HERMAN WALLACH, [redacted] advised that WALLACH occasionally contacts him, professionally and socially, but continues to steer completely away from any discussion of Communists or Communism.

The Bureau will be kept advised of developments in this matter as directed.

Since the commencement of the current SOLO mission on 6/17/61, by NY 694-S\*, the Chicago Office has been maintaining almost constant contact with CG 5824-S\* so as to be alert to all possible developments in this matter. All mail drop boxes maintained by the Chicago Office for the source have been monitored on at least a twice a day basis and on weekends.

Since the receipt of the 2 communications from Prague dated Tuesday (6/20/61) from NY 694-S\*, one of which was received directly by the source and the other through the Chicago mail drop, no subsequent communication has been received by the source from him. The communications of Tuesday, 6/20/61, indicated that NY 694-S\*'s departure from Prague to Moscow was imminent. The elapsed time since departure from Prague would have placed NY 694-S\* in the Soviet Union in excess of 18 days.

CG 5824-S\* on 7/1/61, was in contact with NY 694-S\*'s wife in New York City and as of that date, no subsequent word had been received by her from the source.

Telephonic contact with the New York Office on 7/7/61, indicates that office has no current information indicating current status of NY 694-S\* while abroad.

Although at the present time because of this lapse in communication CG 5824-S\* is expressing some anxiety, though no panic, the Chicago Office desires that the Bureau be informed of this situation. The source feels that it is entirely possible, based on his past experience while abroad, that since NY 694-S\* is traveling under covert conditions, that the Soviets may be keeping him completely under wraps which would prevent outside communication.

The above is being furnished for the information of the Bureau.

TO: DIRECTOR, FBI (100-340711)  
FROM: SAC, NEW YORK (134-91A)  
SUBJECT: NY 694-S\*

As the Bureau is aware, NY 694-S\* went abroad on 6/18/61 and returned to the United States on 7/13/61. While abroad, he contacted important functionaries in Moscow and Prague. While there, he obtained most valuable information concerning matters of international as well as local interest. Further, in view of his informant status, he placed himself in considerable personal danger in order to obtain this valuable information. Despite the fact that he had been away from his wife and children for an extended period of time, the informant, upon his arrival in New York, made himself available for interview to furnish the highlights of this trip. In addition, he spent the first weekend correlating the information as a result of his having destroyed his notes for security reasons. He then dictated all the information obtained by him on this trip. He did this even though he had numerous personal problems which normally would demand his attention.

In view of the great personal risk involved in this trip, the obtaining of most valuable information, and the submission of this information in record time, it is recommended that the Bureau may desire to express its appreciation to the informant for these unusual services rendered by an award in the amount of \$1000.00.

NY 694-S\*

ReBulet 7/31/61.

On August 3, 1961, I personally presented to NY 694-S\* the letter from the Director. After he read the Director's letter, I then presented him with the \$1,000. NY 694-S\* was most appreciative of the generosity of the Director for his comments in the letter, as well as the award. He was very laudatory of the Director and it was quite evident that he holds the Director in the highest esteem. He commented concerning the great organization that the Director has developed, which was further impressed upon him during his contact with the Russians, as a result of which he determined their fear of this organization.

NY 694-S\* requested that I convey to the Director his many thanks and he stated that he hoped that he will over the coming years be able to be of continuing service to the organization. It was my impression in talking with this informant that he was sincere in his comments and was most appreciative of what the Director has done for him.

The letter directed to NY 694-S\* is being retained in the safe in this office, per Bureau instructions.

INTERNAL SECURITY - C

The Bureau feels that the outstanding contributions afforded to the success of captioned operation by NY 694-C\* are deserving of special recognition. There is enclosed an appropriate letter addressed to the informant under his true identity. You are to personally deliver this letter to the informant and afford him the opportunity to read it. The letter should then be brought back by you to the New York Office where it is to be retained in the safe. Under no circumstances are you to relinquish control of this letter at any time.

In addition to the above, the Bureau feels that the manner in which the informant discharged his duties in connection with Solo mission number nine is deserving of recognition in the form of a cash award over and above his authorized remuneration. At the time the above-mentioned letter is delivered to the informant authority is granted herewith to furnish him a cash award in the amount of \$1,000.

Any pertinent observations which you may have relative to the reaction of our informant to this letter and cash award should be made available to the Bureau.

ReNYlet, 7/11/61, advising that owing to NY 694-S\*' being abroad, it would not be possible to submit a cover company financial statement, but that it was hoped that the said statement could be submitted within 30 days.

The informant advises that owing to his activities since his return from abroad, and his present state of physical exhaustion (he has had a recurrence of bleeding from the ears and lungs), he has been unable to assemble and to submit to the NYO, the information necessary for the preparation of the aforesaid financial report. Further complicating his situation is the fact that for the past several weeks he has been moving his office from room 2043 to room 1725 at 30 Broad Street, NYC. This move became necessary because a new building in process of construction had shut off the light and air from his office.

NY 694-S\*' physician has ordered that he take several weeks rest, in bed, if possible, and the informant therefore plans to be on vacation for two weeks, beginning August 21, 1961. He requests that he be permitted to submit, before October 15th, a six months financial statement, incorporating therein the statement currently due.

In view of the above, Bureau permission is requested to allow NY 694-S\* to submit the six month report per his request. Bureau authority also is requested to pay the informant for the period during which he will be on vacation.

NY 694-S\*

Before NY 694-S\* went to Moscow in June, 1961, he called to the attention of the New York Office that because of his perforated ear-drums, he felt it necessary to travel by plane in first-class accommodations rather than in economy-tourist accommodations. He points out that because the CPUSA insists on its people traveling at the cheapest rate, he does not want to take the additional cost of the first-class accommodations from the Party funds, and requests that he be re-imbursed for the difference in cost between first-class accommodations and economy-tourist accommodations. In view of the state of the informant's health, and the importance of his mission, the NYO is in agreement with NY 694-S\*' request.

The informant paid \$1403.80 for a round trip first-class air flight to Moscow. The cost of the economy-tourist flight for the same trip is \$799.60.

Since he was traveling under an alias, the informant felt it necessary to purchase a suit of clothes, several shirts and underwear on which there would be no identifying dry cleaner's or laundry marks. He paid \$85.00 for the suit, and \$16.30 for the shirts and underwear.

Before going to Moscow, NY 694-S\* also expended the sum of \$53.00 for a flight to Chicago, where he conferred with CG 5824-S\* concerning his trip to Moscow.

NY 694-S\* advises that he has had to move his office from suite 1725 to suite 2043 at 50 Broad St., NYC. This move became necessary because of the erection of a new building next to 50 Broad St., which cut off the light and air from the informant's office. The new office, slightly larger than the former office, entails an additional expense of \$13.00 per month--\$5.00 for rent, \$5.00 for the use of electricity for which there had been no charge in the other office, and \$3.00 for maintenance (waxing of floors, etc.).

It is requested that the Bureau authorize payment to the informant of \$170.00 per month instead of \$157.00 per month to defray the monthly cost of the cover company office.

Total - \$6,199.50

Note: Other expenses incident to the operation of the cover company are not listed herein inasmuch as a separate report reflecting such expenses is submitted to the Bureau periodically.

6. Meetings Attended and Other Activity

None during pertinent period.

NY 134-91A

7. Reports Submitted

For security reasons, as previously explained to the Bureau, NY 694-S\* does not furnish written reports or oral reports reduced to writing and signed by the informant. The reports of NY 694-S\*, which approximate 150 for the pertinent period, are disseminated to the Bureau, other field offices, and pertinent NYO files as the nature thereof requires, that is, by teletype, airtel, letter or memorandum.

8. Information Furnished of Unusual Value

The informant reported voluminous information, obtained from top-ranking Soviets in Moscow, concerning the current international situation, and also reported receipt from the Soviets of \$100,000.00 for the use of the CPUSA. He further reported his attendance in Moscow at a Soviet "spy school."

9. Approximate Number of Persons Concerning Whom Informant Reported and Their Importance

In his role of secret member of the CP, acting as a member of the CP Finance Committee, and liaison with the Canadian CP, NY 694-S\* reported concerning the operations of top-level CPUSA leaders, and concerning CP policy as revealed to him by said leaders. He also reported contact with Soviets in Moscow, a Soviet attached to the Soviet UN delegation, a Canadian CP courier, and members of the Czechoslovakian CP and Chinese CP whom he met abroad. In the current pertinent period he has reported contact with approximately 30 such individuals.

10. Steps Being Taken to Advance the Informant

From the standpoint of obtaining valuable information concerning CP policy and top-level operations, the informant's position is ideal. For him to seek any other CP post would militate against his obtaining the important and varied information he now secures. His objective is to extend his field of operation in the position he now holds in the CP.

NY 134-91A

11. Stability and Reliability

No personal weaknesses, indications of instability, untrustworthiness, unreliability, or of similar problems, were noted during the pertinent period. Much of the information furnished by the informant has been verified.

12. Indoctrination Against Disclosure

Every opportunity has been taken to properly indoctrinate the informant against making any disclosure of his relationship with the Bureau.

13. Action Taken on Information Furnished

All necessary action has been taken, and the information has been properly channelized.

14. Miscellaneous

Information obtained from NY 694-S\* has been furnished to the Bureau under appropriate captions.

There is currently on deposit in a special account at the Emigrant Industrial Savings Bank the sum of \$7,446.08, of which \$646.08 is accrued interest.

The informant's cover company office continues to be essential to his maintaining contact with CP functionaries and to the cover operation itself.

On 9/18/61, I telephonically furnished [REDACTED] of the Bureau a set of coded numbers which was the result of coding done by NY 694-S\* of a message which he intended to transmit to VLADIMIR BARKOVSKY. The informant had asked that we furnish this set of numbers to the Bureau so that they decode it and then he would check the Bureau decoding against his own message to see if he had accurately handled it. [REDACTED] stated that he would handle the matter today and call back.

At 3:50 p.m., Mr. JOSEPH SIZOO of the Bureau telephonically communicated with me and stated that the message decoded was as follows:

"Mailing address for [REDACTED] repeat  
[REDACTED] repeat [REDACTED]  
[REDACTED] repeat [REDACTED]"

b6  
b7c

Mr. SIZOO stated that there were two or three minor errors in the coding which did not particularly affect the deciphering. In the 27th group, now shown as 09151, it should have been 05151.

In the 35th group, there were two errors. The digit in the second position, a seven, is actually an extra digit and should not be there. It now reads 07976 and it should be 0976, plus the first digit of the next group, which would change the grouping. Also, the second seven should be an eight, that is, 0986, plus the first digit of the next group.

SUBJECT: NY 694-S\*

ReNYairtel 9/19/61, captioned, "GUS HALL; IS-C", reflecting that in view of the Internal Revenue Department's investigation of GUS HALL's finances, captioned informant had been assigned to find individuals who would testify that they had made loans without interest to HALL.

NY 694-S\* has been cautioned concerning the delicacy of this matter and instructed that under no circumstances should he take any affirmative action without first clearing with this office. The informant has agreed to do so. He has pointed out that he is going to stall any action on his part as long as he can but that in view of the predicament HALL finds himself in he has no doubt that he is going to be forced to take some action. He also states that Attorney ISIDORE "GIBBY" NEEDLEMAN is not the type who would go out and make contact with individuals to ascertain if they would be willing to testify falsely concerning loans made to HALL and that such assignment would be referred to NY 694-S\* to handle. The undesirability of this is appreciated by the informant.

On 9/20/61, Agent [redacted] of the Intelligence Division of the Internal Revenue Department contacted the NYO concerning the said department's investigation of GUS HALL with respect to income tax evasion. According to [redacted] if HALL should contend that loans were the source of some of his income, and should decline to identify the persons from whom he received such loans, the Government could not take any criminal action against him. In this event, the Government's only recourse would be to require payment of taxes on the loans as income. Should HALL identify persons from whom he allegedly obtained loans, the Government would require affidavits from such persons, and would conduct an investigation of their finances.

As an alternative to the informant contacting individuals concerning false testimony, it would appear possible, in view of what Agent [redacted] has stated, that the informant could, in a discreet manner, make known to either or both HALL and NEEDLEMAN the legal situation involved, as stated by [redacted]. This, of course, would have a tendency to defeat the government's case from the standpoint of possible prosecution of HALL as regards the loan angle and would result in the government merely collecting income tax. This would not necessarily defeat the government's entire case in that it is understood that part of the evidence in the possession of Internal Revenue deals with the profits made by HALL in connection with his previous operation of a filling station in Cleveland. Further, Internal Revenue may develop other evidence concerning possible criminal violation on the part of HALL wherein NY 694-S\* is in no way involved. NYO is loathe to recommend a course of action which would in any way militate against the government's action against HALL. On the other hand, the value of the informant to the national effort and the possibility of uncovering the informant and subjecting him to charges of obstruction of justice must be considered in making the decision. It would appear after considering all the facts that NY 694-S\* informing HALL and/or NEEDLEMAN of the legal situation involved would be the better alternative under the circumstances and would be to the best interests of not only the Bureau but the U. S. Government. Although the informant may stall his participation temporarily it appears that he will have to take some definite action. The Bureau's observations are requested.

## BACKGROUND

The files of this office indicate that Childs first came to the attention of [redacted] in 1954 when he traveled to Toronto, Ontario, and contacted Jack Cowan, who was known to [redacted] as a close associate of top ranking Communist Party (CP) members in Canada. Childs again visited Toronto in the Fall of 1954, where he conferred with Cowan. In May, 1955, he visited Cowan for a fishing trip and during that time conferred with Sam Carr [redacted] In August, 1955, he visited [redacted] as well as Cowan, and then went to the USSR Embassy in Ottawa [redacted] Carr, Cowan, and

Later in 1955, he made three additional visits to Canada contacting, in addition to Carr and Cowan, Tim Suck, head of the CPC, and his mistress, Elizabeth Mascolo. He made three trips to Canada in 1956 contacting people of the same type as above, including Norman Freed, [redacted] [redacted] as well as Carr and Cowan. He was in Canada again in 1957 on one occasion; in 1959 on one occasion; and in 1960 on two occasions and on each occasion, contacted persons known by [redacted] to be in the upper hierarchy

of communist activities in Canada.

As a result of his frequent visits and persons contacted, [ ] began to press the Bureau through the Liaison Office in Ottawa for information concerning Childs. As early as September, 1955, the Legal Attache recommended consideration be given to furnishing [ ] information as it would undoubtedly have a bearing on relations between the two agencies. At that time, the Bureau advised the information was not obtainable elsewhere; the risk was too great to jeopardize the source; pertinent information was being furnished on a selective basis received from the source; and it was believed [ ] would understand when it became necessary or possible to advise. [ ] continued to press [ ] for information, claiming Childs had them guessing and interested as he must be an important link between U. S. and Canadian communists. [ ] advised the Bureau in November, 1955, of [ ] continued interest and predicted they would continue to press for information. He suggested advising [ ] however, the Bureau said it was not possible as it would lose control over the number of people having access to the information. The Bureau pointed out it would not be sufficient to merely advise highly placed [ ] officials, as the information would be of no value unless passed along.

b7D

In January, 1956, [ ] requested permission to discuss the problem by a visit to Washington and he did proceed to Washington for such a discussion in January, 1956. No memorandum is in the file setting forth the results of such discussion. [ ] continued to press [ ] and his successor, [ ] and in April, 1959, pointed out they had received no advance notice concerning Childs' visits since 1956, although he had been in Toronto in 1957 and 1959. They said he always apparently had a mission in coming to Canada and wondered if the Bureau still maintained an interest in him. They were advised there had been no change in the Bureau's interest.

b6  
b7C  
b7D

With the writer's arrival in Ottawa in April, 1959, this was one of the first problems which presented itself and despite the fact that Childs has not been to Canada since July, 1960, the question periodically arises in one form or another.

INFORMATION FURNISHED BY THE BUREAU  
TO [ ] CONCERNING CHILDS

b7D

Over the years, the file reflects [ ] have been furnished background information concerning Childs indicating he joined the Young Communist League in 1931 and the CP in 1933. He was active in the Industrial Section of the party

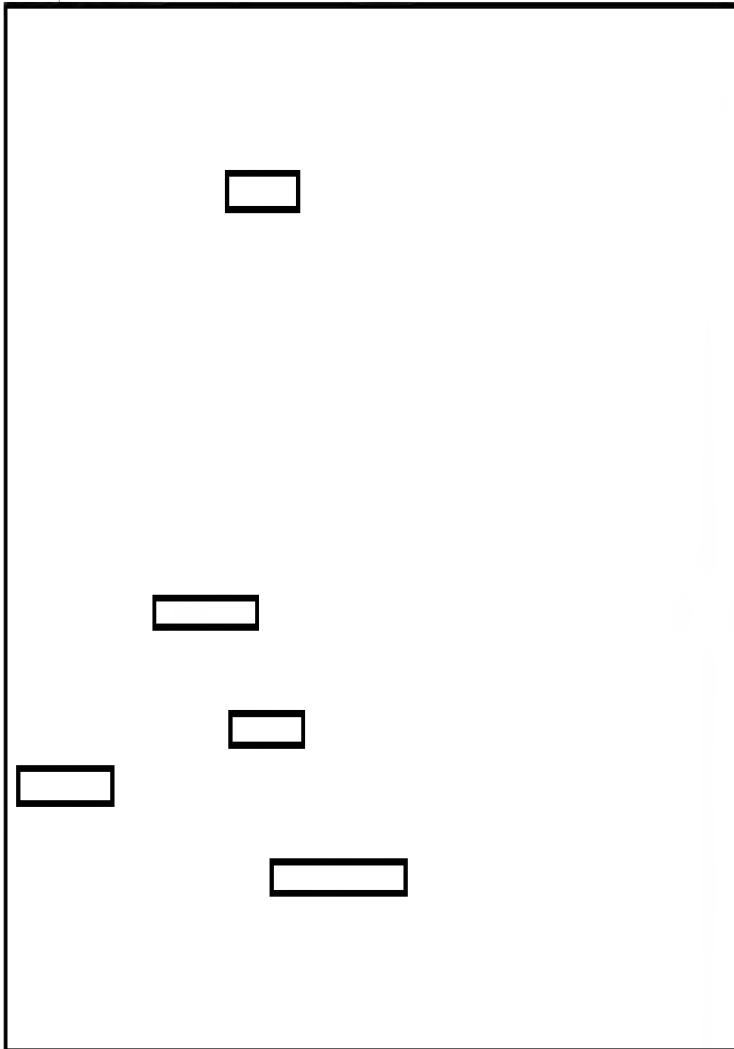

in 1943 and was then business representative of the "Daily Worker" and the leg man for [redacted] who handled secret CP funds. He was residing in New York City in 1954 and employed by Aritso-Grid Lamps Products, Incorporated. In 1955, the [redacted] were advised Childs was not an official of the party, so information concerning him was somewhat restricted, but he had been in contact with leading CP functionaries, including Foster and Cannett. They were further advised that he appeared to be a liaison man among functionaries, but there was no information to indicate that he was in contact with the Soviets or engaged in espionage activities.

b6  
b7C  
b7D

In 1956, they were advised he had been in contact with a number of persons in the United States, such as Isidore Needleman, and made trips to Canada apparently as a CP courier. They were also advised that he has business interests with Cowan and Needleman concerning trade between the west and the Soviet bloc in the event restrictions should be relaxed. In 1960, they were advised he was not an official of the party but continued to act in a liaison capacity between Canada and the United States and continued his frequent contacts with leading party functionaries. They were advised there was no data relative to subversive activities other than above. They were last advised in June, 1960, he was employed with Arisco Associates, New York City, selling drawing stands and photographic tripods to retail trade and was interested in developing Canadian outlets and in furtherance thereof made contacts with Graflex, Ltd., Toronto. They were advised that he was interested in the export-import business with Cowan and frequently conferred with him concerning the establishment of such a business with headquarters in Canada. They were also advised that Childs has an interest in the Two Continent Trade Corporation, which is an American company desiring trade with China and it was originally planned to have an office in Canada, but none had yet been established.

The Bureau feels that the informant should contact Hall personally and advise him of his conference with Needleman. Informant should stress to Hall that while he desires to be of assistance, there are several angles which Hall should consider. If Hall actually received personal loans, the informant will be happy to contact the individuals who made such loans and arrange to have affidavits submitted to Needleman. If, on the other hand, Hall and Needleman are considering obtaining false affidavits, they will be placing the persons from whom such affidavits are obtained in a very vulnerable situation since I.S. will certainly investigate the signers of such affidavits and such action could possibly result in perjury charges against these individuals, as well as subornation of perjury charges against the informant. In this regard, informant can point out that as Hall well knows, the informant is the conduit of funds from the Communist Party of the Soviet Union (CPSU) to the United States; is the direct contact with Vladimir Barlovsky, Counsel for the Soviet Delegation to the United Nations; and received specialized instructions in the Soviet Union for the transmission of data between the Communist Party, USA (CPUSA) and the CPSU. In view of these facts, it

can be emphasized to Hall that it would be highly undesirable for the informant to engage in any action which could possibly result in public reference to the informant and could well destroy his value to the CPUSA.

The Bureau should be immediately advised of the reaction of the informant to this course of action, as well as of the results of the informant's discussion with Hall.

He would like to have this letter cover the following points:

1. Set forth how information is passed along to us from the above informants and just how the contacts are handled.
2. What are the arrangements for emergency contacts.
3. What is done to check on possible surveillances before and after meetings with these informants.
4. Upon termination of meetings with the informants what steps are taken by the Agents and by the informant.
5. Has the New York Office checked NY 694-S\* new office for security, bearing in mind the possibility of the Soviets or the CPUSA having technical coverage.
6. How does NY 694-S\* check for security upon entering or leaving the cover office.

He expressed fear that he would be unable to elicit enough valuable information from a CPUSA or Soviet contact, feeling that they would more than likely feed him only the "Party line."

It was pointed out to [redacted] that he was now in a very valuable position inasmuch as the Communist Party, and most probably the Soviet, were quite interested in him and anxious to make contact with him.

b7D

He was shown that his value did not lie solely in collecting and reporting "economic" information received from contact with a CPUSA official or a Soviet contact, but that it could, and most probably would, extend to areas never previously explored by the FBI.

It was explained to him that the Soviet especially, should they contact him, could use him as a courier in some espionage apparatus as yet unknown to the FBI.

He was made aware that the Soviet, even though they might learn of his existence and identity through NY 694-S\*, could, for security reasons, very well contact him without ever going through NY 694-S\* and without NY 694-S\* ever knowing of the contact.

[redacted] apartment is one of about twelve on the [redacted]. The contacting agent arrives at the apartment about a half hour before the informant, and leaves about a half hour after the latter does. Neither the informant nor the agent enters or leaves the apartment if anyone is standing in the hall or near the elevator. There are numerous shifts of building employees operating the elevator, and it is seldom that the individual running the elevator when the agent and informant enter the building is still on duty when they leave. The agent and the informant have been meeting at this apartment for the past several years, and have never been confronted with a security problem by reason of such meetings.

b6  
b7c

With regard to telephonic contact with the NYO, NY 694-S\* calls either from a special phone in his office reserved for that purpose, or from a public telephone booth. The agent answers on an unlisted telephone in the NYO. Should the informant find it necessary to contact the agent in the late hours of the evening, he calls the agent at the latter's home from a public telephone booth. Should the agent find it necessary to contact the informant in the evening, he must resort to pretext since the informant's family is not aware of the latter's activities in behalf of the Bureau. If the informant is at home, and the purpose of the call is only to furnish information to the informant, the agent conveys the message and the informant, from his end, makes comments, for the benefit of the family, reflecting that he is engaged in a conversation with a business or social acquaintance.

If the informant is not home at the time of the call, the agent leaves a message that Mr. "So and So" (one of a number of names agreed upon) called. Upon receiving this message, NY 694-S\* understands that he is to contact the agent at the latter's home from a public telephone.

Letter to Director  
NY 134-91A and 66-6989

NY 694-S\* is constantly aware that he may be under surveillance by either the CPUSA or Soviet Agents when he leaves his home or office to meet the contacting agent. Upon going to or returning from a meeting with the agent, he employs numerous devices learned by him over the years to detect a surveillance, such as "back tracking", getting off elevators at a floor other than the one to which he is going, getting on and off a subway train before the door closes, and travelling by a circuitous route. After a meeting with the informant, the agent, before he returns to the office, employs the same sort of tactics.

Office Operated by NY 694-S\*

With reference to the assurance that security has not been compromised at this office, telephones are checked once every 3 months.

CG 5824-S\*

Contact with CG 5824-S\*, while the latter is in NYC, is strictly telephonic. The informant calls the contacting agent from a public phone booth, either on an unlisted telephone at the NYO or at the agent's home. If the agent should find it necessary to contact CG 5824-S\* in an emergency, he would do so through NY 694-S\*. In the event the latter were not available, the agent would leave a message at CG 5824-S\* hotel that the latter should call Mr. "So and So", (a name agreed upon), which would be understood by CG 5824-S\* to mean that he should telephonically contact the agent.

COMMUNIST PARTY OF CANADA

The following information has just been obtained from confidential sources which have supplied reliable information in the past. This report was received by the national office of the Communist Party (CP), USA, and reportedly emanated from a Canadian source.

Tim Buck, General Secretary of the CP of Canada, has been encountering political difficulties with [redacted] Leslie Morris, both functionaries of the CP of Canada. Pressures being exerted by [redacted] Morris are forcing Buck to retire as General Secretary; however, he will continue to serve as Chairman of the CP of Canada.

b6  
b7C

Functionaries of the CP of Canada have already agreed on the future top leadership for the Party, although the next convention is not scheduled to be held until the last week of December, 1961, or the first week of January, 1962. The leadership agreed upon is as follows:

Leslie Morris                      General Secretary

[redacted]

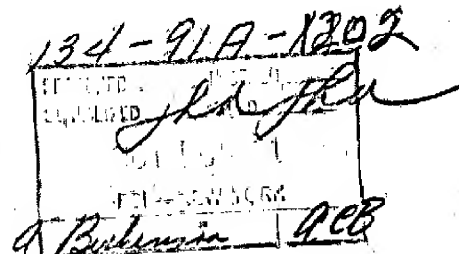

b6  
b7C

The Secretariat of the CP of Canada will consist of these same four individuals, along with Tim Buck. Buck has been insisting that he not be a member of the Secretariat. The chances are that, despite his protests, he will be made a member.

Leslie Morris and Tim Buck are currently preparing to travel to Moscow, Russia, to attend as delegates from the CP of Canada the 22nd Congress of the CP of the Soviet Union.

**COMMUNIST PARTY OF CANADA  
INTERNAL SECURITY - C**

Enclosed herewith for the Legal Attache, Ottawa, and the SAC, New York, are two copies each of a letterhead memorandum setting forth information concerning the Communist Party (CP) of Canada. This information was contained in New York airtel to the Bureau dated 10/9/61.

You are authorized to make available one copy of the enclosure [redacted] You should impress upon your source that this information was derived from highly delicate and sensitive sources of the Bureau.

Your attention is directed to Bureau cable 10/7/61 captioned "Communist Party, USA" requesting information from [redacted] concerning the visit of Elizabeth Mascolo to New York City. You are to continue to press [redacted] for details concerning this visit.

For the information of New York! [redacted] has been requested to confirm the visit of Mascolo to the United States, the nature of her business, persons to be contacted, results of contacts if consummated, and any other information of interest to the Bureau. Results of these inquiries will be supplied to New York when received from [redacted]

New York is instructed that in the future when information is obtained by NY 694-S\* from representatives of the CP of Canada to supply the Bureau with full details of the circumstances under which the informant obtained the information, such as in person, telephonically, at home, at office or in a restaurant. Set forth identification of other individuals to whom informant supplied the information and your recommendation as to whether the information can be disseminated without jeopardizing the informant. Information submitted that is to be disseminated must be incorporated in a letterhead memorandum and paraphrased in such a way as to completely protect NY 694-S\*.

INTERNAL SECURITY - C

Re Bureau airtel to New York and Chicago  
10/9/61 setting out that NY 694-S\* and CG 5824-S\* are  
not to travel to Canada under any circumstances without  
prior approval of the Bureau.

NY 694-S\* should be promptly advised that it  
is extremely undesirable for him to travel to Canada  
under any conditions in the future. The informant should  
exercise every initiative in order to avoid any assign-  
ments from Communist Party (CP) functionaries which  
would make it necessary for him to travel to Canada.  
Plausible reasons should be given to CP functionaries  
when request for such travel is made in order to com-  
pletely avoid such travel if at all possible.

Chicago is to follow the above instructions  
in connection with the travel of CG 5824-S\* to Canada.

Re: NYlet, 4/13/61.

The financial statements for the cover company for the period 4/1/61 through 9/30/61, are submitted. The statements include a Profit and Loss Statement, a Balance Sheet and schedules giving the details of expenses.

It should be noted that the cash balance as of 9/30/61, should be \$780.03 although NY 694-S\* had stated that it was only \$315.44. Informant advised that he believes that this shortage resulted from an error in bookkeeping on the part of his Chicago office. Informant stated that he further believed that he would be able to clarify this shortage after receiving additional information from Chicago. The NYO will follow this and keep the Bureau advised.

The Profit and Loss Statement reflects a gross profit of \$425.11 and a net loss of \$3,895.28 for the nine months period ending 9/30/61. The merchandise inventory is computed at cost. Payment of \$2,000.00 to the informant on 6/14/61, has increased loans payable from \$7,500.00 to \$9,500.00, which represents the money advanced by the Bureau since 1960.

The next report will be submitted on or about 1/15/62.

NY 694-S\* continues to spend approximately two hours per day on cover company operations without interfering with his efforts on behalf of the Bureau.

ReNYlet 10/6/61, concerning contacts with NY 694-S\*.

In order to further clarify meeting places with reference to the informant, it has been the practice of the NYO that when it is necessary to meet the informant in order to have a discussion with him, these meetings have taken place at [redacted] apartment, located on the [redacted]

[redacted] The details concerning this meeting place are set out in relet. This has proven to be a very secure location and it is felt should continue. Where special occasions arise requiring more than the contacting agent to participate in the discussion, a hotel room is rented, also under most secure conditions. Examples of these hotels would be the Dryden East and the Statler Hilton. It has been possible to make these arrangements through excellent contacts of the NYO. With reference to the passing of recorded information from or to the informant, this is handled as follows:

A phone call is made and it is agreed between the contacting agent and the informant as to the general area where the contact will be made, such as Grand Central Station, a subway station, the Flatiron Building, the New York Life Insurance Building, the Corn Exchange Bank, etc. The agent then makes sure that he is in the vicinity of that location prior to the arrival of NY 694-S\*. When the informant arrives, he spots the agent and he continues on his way to what he considers a secure location, such as a phone booth, a men's room, a lunch room counter, etc. Once it is decided that full security exists at this point there is an inter-change of the written documents. Prior to the time that the meet is made the informant and the agent assure themselves that they are not being surveilled. After the meet is made, again assurances are made that there is no surveillance.

Letter to Director  
NY 134-91A & 66-6989

With reference to the home telephone of SA ALEXANDER C. BURLINSON, to which the informant has occasion to make calls, we are at the present time in the process of checking the line for security and the absence of any technical coverage. This should be completed by Wednesday, October 25, 1961. In addition, this check will be set up on a quarterly tickler to be handled at the same time that the informant's office phone is checked.

# Memorandum

TO : SAC, NEW YORK (134-91)

DATE: 10/19/61

FROM : ASAC NORMAN H. McCABE, DIVISION IV

SUBJECT: NY 694-S\*

With reference to the letters received from the Bureau concerning the Canadian trip made by NY 694-S\*, I talked to Inspector J. A. SIZOO of the Bureau on 10/19/61 who stated that [redacted] practically say that they have made our informant. We have denied to them that NY 694-S\* is our informant. In view of this, the Bureau prefers that NY 694-S\* not go to Canada at any time in the near future. The Bureau would like NY 694-S\* to figure out reasons why he should not go to Canada in the event he is asked to do so. Perhaps this would be because of his health or possibly some other reason that he can think of. I pointed out to Mr. SIZOO that if NY 694-S\* was instructed to go to Canada specifically by HALL, he would almost have to make the trip. Mr. SIZOO stated that the Bureau is not saying that NY 694-S\* cannot at any time in the future go to Canada, and a situation may develop where the Bureau would have no alternative but to let him go up there. However, in view of the developments with [redacted] the Bureau desires that NY 694-S\* be thinking about this matter and trying to determine logical reasons why he should not make a trip to Canada at any time in the near future.

ReCGlet 10-4-61 entitled "Solo, IS-C," and New York letter 10-6-61, above captioned, setting forth information concerning the handling of these informants.

Both offices should continue to closely follow each aspect of the operation of these informants to be certain full security is maintained. All personnel involved in this matter should be constantly alert to obtain the maximum benefit from these sources and whenever necessary be ready to consider any modifications or changes in their handling to further improve the quality of this coverage.

Previous instructions require the submission of a report on a quarterly basis by the 15th of January, April, July and October of each year on the cover company being utilized by the informants and financed by the Bureau. In this report the Bureau is advised of the amount of time being spent by each informant in the conduct of the business and observations are also included as to whether the time being spent is necessary and if the activity of the informants in the cover business is interfering in any way with their Bureau work. Both offices should continue to submit this information.

In order that the Bureau will be currently informed of the other aspects of this operation, both offices should also include in the quarterly letter information regarding the manner in which personal and telephonic contacts are made with each informant and what arrangements have been made to pass documentary information which may not require a personal contact. Data should also be set forth concerning the maintenance of security at the cover office in New York and Chicago and comments included as to any possible modifications if such changes are deemed necessary. The frequency of technical or other checks which are made should also be included in this communication.

With regard to the observations in relet of Chicago previous instructions should be followed concerning the use of cautionary statements whenever such are necessary and should not be routinely applied without full consideration as to the need therefor.; Also, the information developed by these informants is still to be considered as investigative fact and set forth in reports as in the past. No change is being considered at this time with regard to handling payments to the informants.

Enclosed herewith for New York and Chicago is one Photostat each of a ~~"Top Secret"~~ memorandum of the [redacted] captioned "Communist Party of Canada 'Underground' Organization."

Particular attention is directed to page two of the enclosure concerning the telephone call of Elizabeth (Bess) Mascolo. Both New York and Chicago should thoroughly review this matter as this information indicates the extent of coverage [redacted] has concerning Canadians who are in contact with NY 694-S\* and CG 5824-S\*. It is obvious that any indiscreet remarks by NY 694-S\* and CG 5824-S\* that later are obtained by [redacted] would be highly undesirable.

New York is instructed to caution NY 694-S\* to exercise utmost discretion in all future contacts with Canadians.

Chicago is to follow the same instructions relative to CG 5824-S\* as soon as CG 5824-S\* is available.

SAC, NEW YORK [ ] P.

b7D

[ ]  
ReNYlet to Bureau, 10/3/61.

Progress, Development and Contacts

Regular contact with the informant has been maintained during the past month.

On 11/1/61, NY 694-S\* advised that on the day previous, 10/31/61, GUS HALL, in referring to [ ] again mentioned that he had been very impressed by [ ] answers to the economic-financial questions presented to [ ] by HALL, and that as soon as time permitted, HALL would prepare, or have prepared, another set for presentation to [ ]

b7D

NY 694-S\* further advised on 11/1 and 2/61 that as soon as possible NY 694-S\* would, with HALL's concurrence, aid and probable accompaniment, arrange a meeting between HALL, JACOB BUDISH and [ ]

On 11/1/61, NY 694-S\* advised that HALL on 10/31/61 had instructed NY 694-S\* to locate a suitable private storeroom for storage of valuable and incriminating CP records, presently located in various places throughout the country. In particular, HALL cited records held in the possession of [ ] and CP National Control Commission records formerly held by [ ]

b6

b7C

b7D

Consideration was given to the utilization of [ ] New York, as a possible storage place.

b7D

On 11/6/61, NY 694-S\* advised that on 11/5/61 such a solution was presented to HALL, who dismissed the suggestion because he considered the farm to be too far from New York City, which would render the records too inaccessible for adequate review by appropriate personnel. HALL at that time stated that he was not dismissing the idea because of any dissatisfaction with [redacted] but only because of possible difficult accessibility.

NY 694-S\*, on 11/1 and 2/61, mentioned again that he was hopeful that the Soviet interest in [redacted] enhanced by NY 694-S\* during his last trip to Moscow and further aroused by NY 694-S\*'s contact with VLADIMIR BARKOVSKY in New York City upon his return (cf. NY letter to Bureau 9/5/61), would result in Soviet contact with [redacted] in the near future.

b7D

It is noted that the past month has been a particularly busy one for the CP officials in New York City--the CP's 22nd Congress was in session in Moscow--and logical possibilities for arranging meetings between [redacted] and CP officials were thereby complicated.

b7D

The NYO, in its direction of [redacted] has sought to keep him apart from the usual stream of less important contacts of the CPUSA and to maintain and further his position as a top level valuable CP contact and source of economic-financial information.

Such direction necessarily limits the means which can be employed in activating [redacted] and, depending on attendant circumstances, can even slow down his day-to-day development--pertinent officials being busy on more important tasks, etc.

b7D

However, following that course of action assures that [redacted] CP contacts will continue to be only with top level

[redacted]

b7D

CP officials. Further, any lower level development would probably be unpalatable to an individual such as [redacted] and could ultimately cause him to lose interest in his own development.

Also, it has been felt that any arrangement for contact with lesser CP personalities, although it would "develop" [redacted] in addition to lessening his value in the eyes of the CPUSA leadership, would also tend to lessen his value in the eyes of the CPSU.

b7D

The NYO therefore will continue in its slow, deliberate development of [redacted] will take advantage of every available opportunity, and will keep the Bureau advised as directed.

(Room 2248) On 11/30/61, I telephonically communicated with Mr. JAMES F. BLAND of the Bureau and referred to the Bureau being previously advised concerning the obtaining by NY 694-S\* of records in the possession of [REDACTED] and others, which are CP records. I informed Mr. Bland that NY 694-S\* has advised that GUS HALL is dissatisfied with the present location of these records and feels that they should be in a location under CP control. HALL suggested a basement in the building wherein EMMANUEL KOLKO maintains his business. NY 694-S\* advised that in his opinion we should go ahead and try to rent another room for the purpose of temporarily storing these records. He stated that he feels he will be able to convince HALL that in view of the poor lighting conditions in the suggested space in KOLKO's building, it would be preferable to have them locate it temporarily in another room wherein the lighting facilities would be better. He further stated that he cannot get the CP to pay for this space and requested that the Bureau pay the rental.

I advised Mr. Bland that it appears we can obtain a room located at 401 Broadway and that this room will cost \$52.50. Further in view of the situation, it looks like we have no alternative but to go ahead with the payment. I advised that it would appear to me that we would not have to rent this space for too many months. Mr. Bland stated that he would check into it and call back.

On the afternoon of 11/30/61, Mr. Bland advised ASAC McCABE that the expenditure has been approved by the Bureau and that we should let the Bureau know when it is no longer productive in order to discontinue the room.

Dear Mr. Childs:

It was with regret that my associates and I learned of the passing of your father. Although words are most inadequate at a time such as this, we do want you to know that the thoughts of your many friends are with you. All of us sincerely appreciate the excellent work you are doing, and we hope you will continue to serve the Nation with the excellence which has characterized your career.

Please feel free to call on my associates or me if we can be of any assistance.

With regard to the operation of the cover company in 1962, NY 694-S\*, has suggested several changes. To make the operation more "visibly realistic" and, therefore, more secure, he proposes that a new product - ladies' special walking shoes such as are worn by waitresses, nurses, and other employees of hospitals and laboratories - be added to the present items sold by the cover company by mail order. Since BEN CHILDS is an experienced shoe salesman, familiar with all aspects of the shoe business, NY 694-S\* feels that such a business could be operated to advantage, giving the cover company more stability, making it a more realistic operation in the eyes of CP functionaries, and possibly making a profit.

The informant further proposes to spend no more than \$450.00 in the advertising and promotion of the drawing and projector stands, and to concentrate on the advertising and promotion of the new shoe item.

According to NY 694-S\*, he has given considerable thought to this new proposal and has investigated the matter of a franchise, which he feels certain he can obtain. Should the Bureau approve the informant's proposal, he suggests that the name of the Chicago Office of the cover company be "Arisco Sales" and that the New York Office continue to be known as "Arisco Associates."

	<u>\$8,892.32</u>

Recommendations of NYO

In view of the fact that the sale of shoes, in addition to drawing and projector stands, would offer more realism to the cover company's operations, and consequently to the security of the said operation, and further in view of the possibility of making a profit from the sale of such shoes without materially increasing the cover company budget, the NYO is in favor of the informant's suggestion, and believes that the proposed expenditure for 1962 in connection with the cover company's operation is justifiable.

The NYO also suggests that rather than continue to pay the expenses of the NY office of the cover company pursuant to separate Bureau authorization, the expense of maintaining the said office, which amounts to \$170.00 per month, including rent, maintenance, and telephone service, be incorporated in the annual cover company budget. It is believed that this would be a logical accounting procedure. It is suggested, therefore, that the 1962 proposed budget be \$10,932.32.

The NYO recommends that with the proposed modification, the cover company be continued in 1962 and that the budget as proposed for 1962 be authorized.

NY 694-S\* continues to spend approximately two hours per day on cover company business without affecting adversely his activities in behalf of the Bureau.

The next financial report concerning the cover company will be submitted on or before 1/15/62.
